

OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENT Policy

AUSTRAL INTEGRATED SERVICES, INC provides Directional Drilling Services and defines its Mission, Vision and HSE policy based on the following concepts.

VISION

Our vision is to be a Premier International Provider of Directional Drilling Services with local support to operate worldwide.

MISSION

AUSTRAL INTEGRATED SERVICES INC is committed to providing high quality service and solutions for the Directional Drilling market worldwide. We work one-on-one with our clients to understand and accomplish their goals and challenges and constantly learning to surpass client's expectations.

To achieve its Mission and Vision AUSTRAL INTEGRATED SERVICES INC recognizes that excellence in managing occupational, safety and environmental responsibilities is essential to long term success. Through effective management, we aim to ensure the health and safety of our employees in our operations. We ensure the operation with strict control of the drilling procedures at the same time we recognize the importance of the environment protection. It is our intention to proactively work with our customer, the public, governments and other to use natural resources in an environmental friendly manner. AUSTRAL INTEGRATED SERVICES INC maintains and communicates this policy to all participants' organization and other interested parties.

For your fulfillment the following commitments have been established:

1. Develop, implement, maintain and comply with an Integrated Management System, driven by continuous improvement, according to the guidelines of this policy.
2. Provide the necessary and appropriate resources to implement and disseminate this policy throughout the company.
3. Set goals for improvement and measurable goals for quality, health, safety and the environment within a model of excellence.
4. Develop and maintain programs of control and quality assurance, in prevention of injuries and occupational diseases for people, in prevention of environmental pollution, and taking into account that any accident should and can be prevented.
5. Comply with the legal requirements applicable in each of the project, related to their environmental aspects and the occupational safety and health hazards, and with any other requirement voluntarily assumed by the company.
6. Provide continuous training at all levels of the Company, to preach by example and good practices in all operations.

This Policy is kept available to all interested parties, and is reviewed periodically for its continued suitability.
